

AGRICULTURE

Oversee Operations from **Harvest to Warehouse**

Take control of your agricultural processes
with tools that drive efficiency.

THE POWER TO PREDICT

Your unique operation, Your unique Crystal solution.

We know that few industries can experience a sudden change of season quite like farming, which is why Ctrack offers farmers practical solutions that are designed for better AgriBusiness. While we can't predict the weather, we can offer a way to reduce uncertainty by providing a clear field of vision and practical insights, so you can make better decisions on the ground.

Cutting costs is a job that's never done and that even the smallest improvement can have the biggest effect, over the long term. That's where Crystal gets its hands dirty. One platform, simple and powerful, accessible from the palm of your hand, that gives you a clear view of everything going on, and the Power to Predict what's going to happen next, so that there's time to make a plan.

Reduce risk and minimise safety hazards

Optimise fleet productivity and efficiency

Improve asset management and tracking

Manage and improve driver behaviour

Automate and streamline compliance

A giant leap from mere tracking and reporting to
The Power to Predict.

Real time insights for real operational improvements.

Advanced features to plan ahead and optimise your agricultural operations.

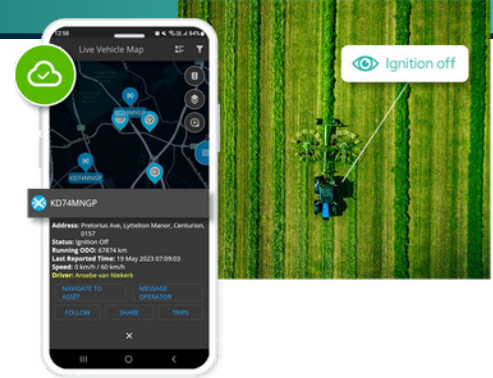

FLEET & ASSET MANAGEMENT

Stay one step ahead and take action before it is too late.

Protect and Optimise Your Farming Equipment:

- **Essential Monitoring:** Track your equipment in real-time, from harvesters to tractors, wherever you are.
- **Proactive Alerts:** Receive instant notifications for unusual activity to safeguard your assets.
- **Smarter Maintenance:** Plan ahead with Crystal's tools to maximise equipment uptime and efficiency.

Keep your farming operations running smoothly with Crystal's advanced monitoring and planning capabilities.

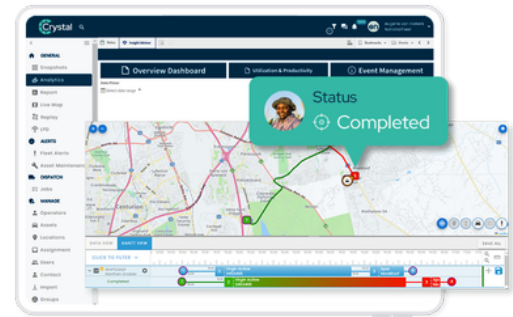

FLEET PLANNING AND SCHEDULING

The confidence to see it through.

Timing is critical to achieving return on investment, especially during the last mile of delivery. Crystal ensures you stay ahead with real-time insights and seamless coordination:

- **Real-Time Visibility:** Monitor transport and shipping status with up-to-the-minute updates.
- **Proactive Decisions:** Access actionable data to address issues before they escalate.
- **Enhanced Collaboration:** Share live updates across the supply chain for improved alignment and timely results.

Crystal empowers you to deliver on time, every time, enhancing efficiency and customer satisfaction.

FLEET UTILISATION

Unleash the full potential.

Crystal empowers your team to maximise productivity and efficiency through:

- **Enhanced Productivity:** Enable workers to achieve more in less time.
- **Optimised Resource Use:** Identify opportunities to reduce downtime and improve equipment utilisation.
- **Data-Driven Decisions:** Allocate resources effectively for maximum impact.

Drive your farm's success with smarter, more efficient operations.

DRIVER MANAGEMENT

Enhance your farm's efficiency.

Crystal's Power to Predict equips you to stay ahead and achieve greater success with:

- **Increased Productivity:** Maximise output and cultivate an efficient workforce.
- **Exceptional Customer Service:** Build trust and credibility with reliable performance.
- **Actionable Insights:** Gain valuable data on driver behaviour and operational efficiency.

Empower your farm with tools to deliver results and drive lasting success.

The Power to Predict

Your all-in-one fleet management solution that goes beyond tracking and reporting.

Advanced features to plan ahead and optimise your fleet management operations.

Safety & Security

- Video camera solution: Dashcam and Iris angle facing options around vehicles
- Vehicle & fleet stolen vehicle recovery services
- Remote sensors – doors, tipping, tankers
- Driver identification
- Restricted areas and hours utilisation

Driver Behaviour

- In-cab communication, navigation & task scheduling
- Incident alerts & alarms
- Driver Performance monitoring
- Two-way messaging Speed and RPM monitoring

Asset Management

- Fuel consumption monitoring
- Engine performance monitoring (CANbus)
- 24/7 Bureau service
- Online fleet management software
- Vehicle inspections – Notes with images

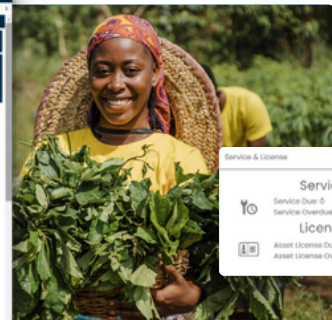

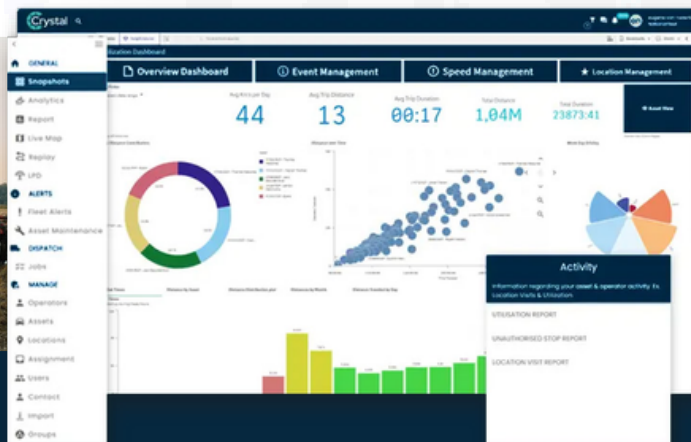

Productivity & Efficiency

- Job scheduling & route planning
- Rich fleet analytics
- Live productivity dashboards
- Restrict specific zones

Compliance

- Billing records matching asset usage
- Electronic proof of delivery (ePOD)
- Maintenance records
- SMART Integration with third-party systems
- Integrated hour meters
